Data Source: U.S. Census Bureau, 2010-2014 American Community Survey. Figures are subject to error. Areas on the map may not be statistically different. Housing units for seasonal, recreational, or occasional use are vacant units used or intended for use only in certain seasons or for weekends or other occasional use throughout the year. Seasonal units include those used for summer or winter sports or recreation, such as beach cottages and hunting cabins. Seasonal units also may include quarters for such workers as herders and loggers. Interval ownership units, sometimes called shared-ownership or time-sharing condominiums, are included here.
